

BURST! CREATIVE GROUP

Frontend Developer

POSITION OVERVIEW

Burst! Creative Group is seeking a frontend developer with strong JS and CSS skills. CMS experience with Drupal and / or Wordpress is a huge plus but not required. The successful candidate will work alongside backend developers to build responsive websites from the ground up and also help maintain existing sites. Additionally you'll work with project stakeholders and the design team in various stages of the project lifecycle.

This position has the opportunity to work with newer technologies and tools and technologies such as React and Angular to build fast and fluid user interfaces.

DUTIES & RESPONSIBILITIES

- Write well designed and clean code by using best practices.
- Help identify any frontend technical challenges before a project begins.
- Be responsible for maintaining and expanding existing projects.
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities.
- Collaborate with designers visual design and offer input into user experience.
- Develop guidelines for frontend developers and interface designers.

REQUIREMENTS

- Experience with responsive design.
- Comfortable working with React or Angular, Javascript, SASS/CSS, JQuery, HTML5, GIT.
- Graduated from a college, university or coding school.

BONUS SKILLS & EXPERIENCE

- Adobe Photoshop (image extraction and compression)
- NodeJS, task runners such as gulp or grunt.
- Comfortable with FTP, SSH, localhost environments.
- Familiar with Wordpress and or Drupal

If you would like to apply for this position, please send your resume and portfolio to info@burstcreativegroup.com for consideration.

We look forward to hearing from you soon.
